

Assignment 1 HTML Problem statement:

Important Note: Please write a comment in your codes and a thought note in a separate sheet while submitting the assignment. If comments and thought note is not present in your submission, marks will get deducted.

Create a website for your Tourism company for your city. It should include all of the following (feel free to add more content) :

1. About Us Link: It should redirect to the About Us page when clicked. (Contains more details about your tourism company)
2. Contact Us Link: It should contain a form with at least three values such as Name, Email id, City, and message, along with a submit button. (You can add other fields like phone number, address etc)
3. Climate Link: It should contain a table containing details about the climate in your city and create a table for the same. (Add at least 3 columns).
4. All the above-given links, should redirect to their respective HTML pages when clicked.
5. The Home page(main page) should contain the heading (Name of your city), its details, and Images of the city. (Images can be aligned by using table tag and padding property).
6. The Home page should also contain an iframe element, which can be linked to a page related to your city or can be linked to about us page.
7. Images Links : (You can use the website : <https://unsplash.com> to get the image links, or download it from other resources locally and add its path in the URL attribute of img element)

New York Tourism

About New York :

New York, often called New York City (NYC) to distinguish it from the State of New York, is the most populous city in the United States. With a 2020 population of 8,804,190 distributed over 300.46 square miles (778.2 km²), New York City is also the most densely populated major city in the United States.
